

Can you spot...

1. Bat boxes in trees
2. 'Shadow' sculpture
3. Hedgehog seat
4. Bug hotel
5. Line of beech trees

This activity sheet has been produced as part of Living Wild at Kielder; a partnership project funded by the National Lottery Heritage Fund and delivered by Kielder Water & Forest Park Development Trust, Northumberland Wildlife Trust, Northumbrian Water, Forestry Commission England and the Environment Agency, with support from Newcastle University and Northumberland National Park Authority.

### See what you can spot at the wildlife hide

Red squirrel

Wood mouse

Squirrel feeder

Squirrel lifts lid to reach food

Bird feeder

Grill to keep out squirrels!

Chaffinch

Coal tit

Bat lands here and crawls up into the box

Bat box

Small hole or slot to keep out larger birds

Bird box

Make an ear trumpet by rolling up this sheet like this...

...then you can listen to the sound of the trees!

In the wind you can hear the tree's fibres creaking

In the spring you can hear the rushing sound of the sap rising

The big beech trees are hundreds of years old. They are home to loads of minibeasts. The minibeasts are food for the many birds you can see and hear - use your ear trumpet to listen to their calls.

### Beech trees have beautiful leaves

1. Cut or tear out the squares to make little windows.
2. Fold the paper in half so the two windows match up.
3. Choose a beautiful leaf.
4. Sandwich your leaf so it makes a 'stained glass window'.
5. Hold it to the light to see if you can see the cells and veins
