Gruffalo! Squirrel hide

meadows

Sparrows and chaffinches stealing crumbs from picnics.

Look for mud nests just below the roof. Can you see who made them?

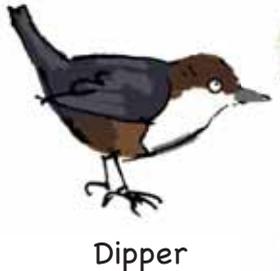

How many birds can you count on the feeders by the cafe windows?

Follow the windy path to the hide. How many zig-zags are there? Look for nuthatches hunting for insects on tree trunks.

Some treasure is hidden in this area!  
It's called a **geocache**. Go to [www.geocaching.com](http://www.geocaching.com) to find out more.

Insects hiding in the stone walls of the maze.

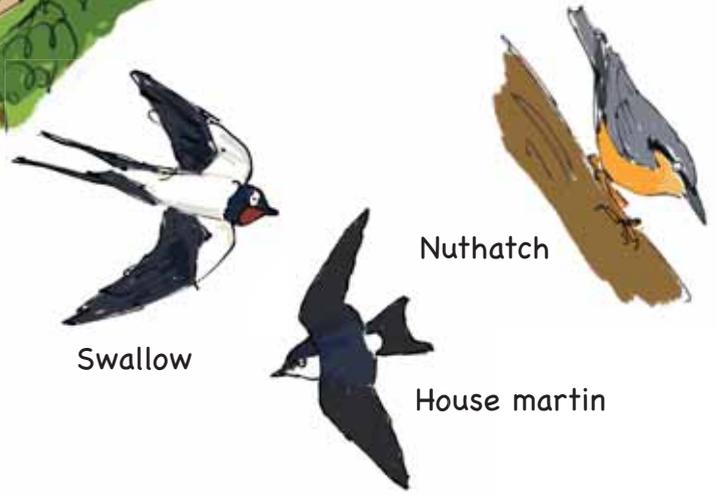

How many fish are crossing the bridge?

Watch for dippers along the river.
